SALT HOUSE

Naturally Sourced Mineral Salts

Structured for Global B2B Supply

A Curated Collection of Distinctive Natural Mineral Varieties for Global Supply

Muscat / Sultanate of Oman

WHO WE ARE

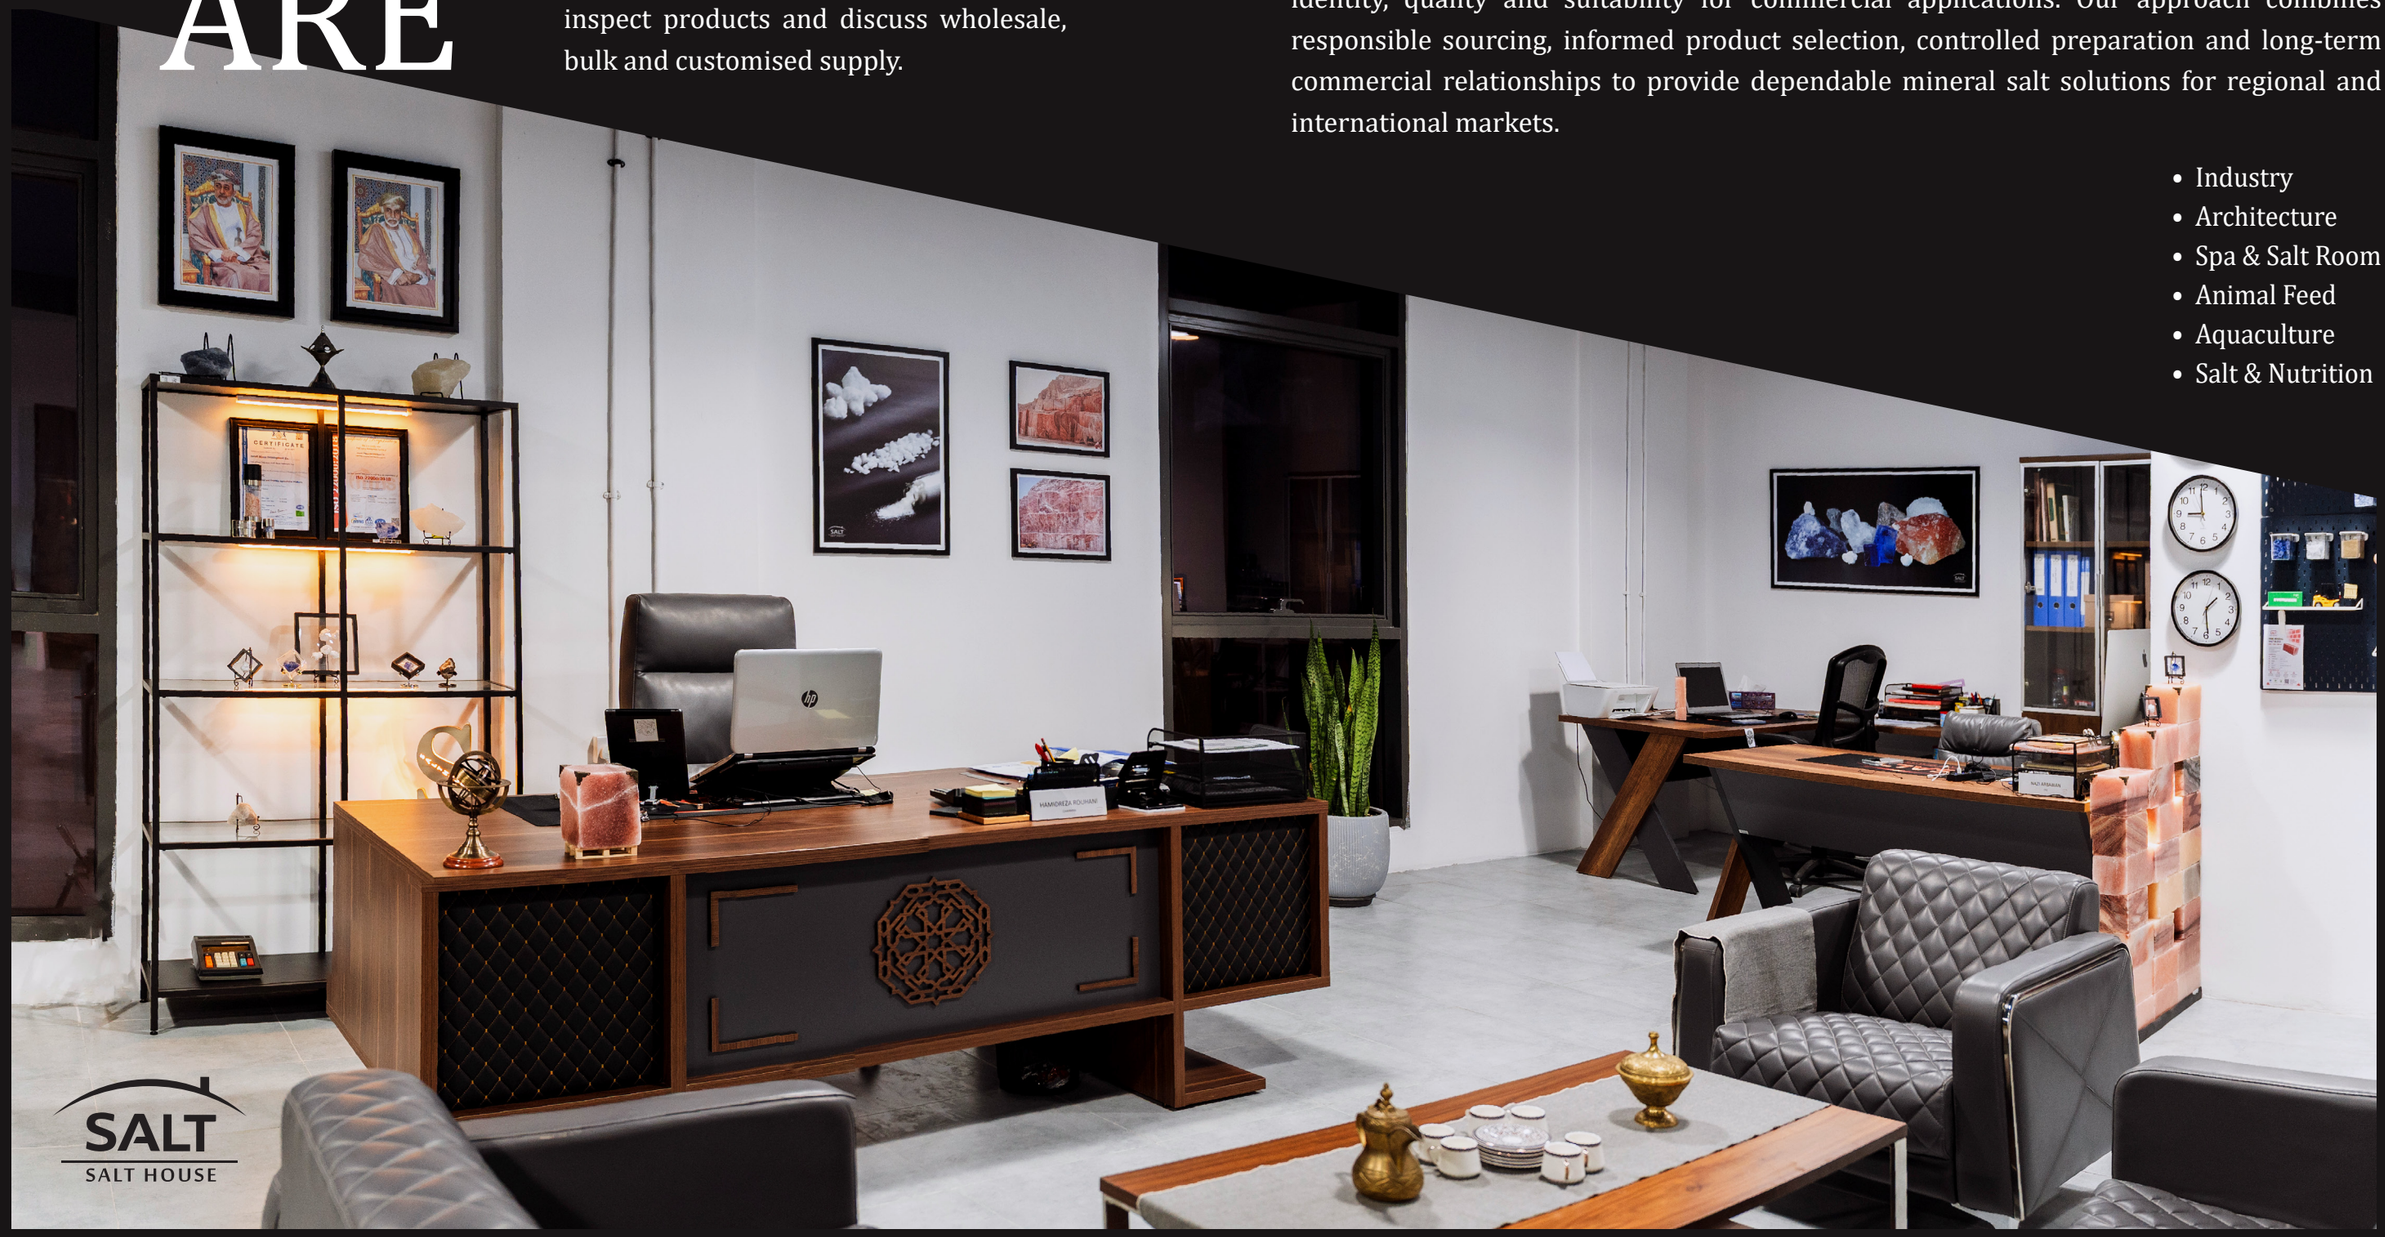

Salt House® is an Oman-based B2B supplier of carefully sourced and controlled mineral salts, offering a curated mineral collection of distinctive natural varieties for industrial, architectural, spa and salt room, animal feed, aquaculture, salt and nutrition applications. Through its Muscat office, showroom and warehouse, customers can inspect products and discuss wholesale, bulk and customised supply.

Responsible Sourcing
Controlled Preparation
Reliable B2B Supply

OUR APPROACH

Geological origin, natural composition, purity and mineral characteristics define salt identity, quality and suitability for commercial applications. Our approach combines responsible sourcing, informed product selection, controlled preparation and long-term commercial relationships to provide dependable mineral salt solutions for regional and international markets.

- Industry
- Architecture
- Spa & Salt Room
- Animal Feed
- Aquaculture
- Salt & Nutrition

FLEXIBLE PRODUCT

FORMATS FOR DIVERSE COMMERCIAL REQUIREMENTS

Salt House® supplies naturally sourced mineral salts in a range of forms, sizes and configurations for commercial, industrial and project-based requirements.

Products can be selected and prepared to agreed dimensions, particle sizes and physical specifications, subject to product characteristics, availability and customer needs.

PRODUCT FORMATS

Crystal & Raw Mineral Salts

Selected crystals, coarse pieces and raw mineral chunks in various sizes.

Crushed & Granulated Products

Controlled crushing and grading to defined particle sizes and physical characteristics.

Powder & Fine Grades

Selected fine particle sizes for industrial and application-specific requirements.

Blocks, Bricks, Tiles & Slabs

Natural salt formats for architectural, wellness, spa and project applications.

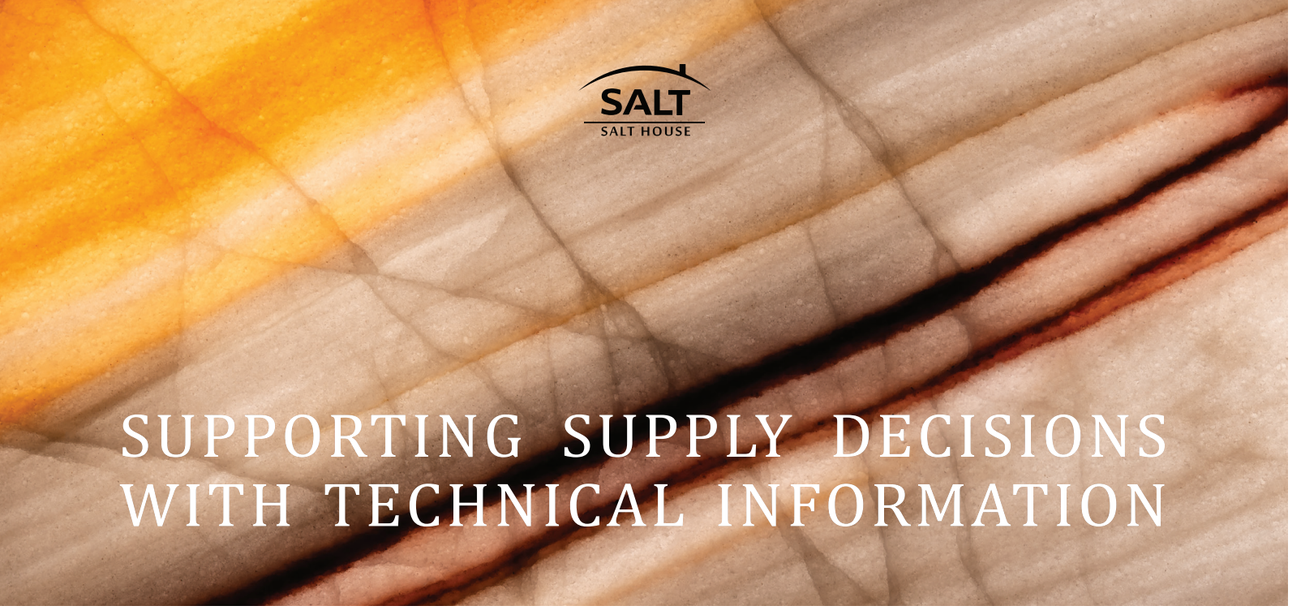

Custom Dimensions &Physical Preparation

Cutting, sizing, grading and other physical preparation according to agreed project and product specifications.

SUPPORTING SUPPLY DECISIONS WITH TECHNICAL INFORMATION

Salt House® supports product evaluation and procurement decisions through available technical specifications, laboratory information and product documentation relevant to customer requirements and intended markets.

SALT
SALT HOUSE

SUPPORTING SUPPLY DECISIONS WITH TECHNICAL INFORMATION

Product Specifications
Agreed parameters including purity, particle size, crystal form, colour and dimensions.

Laboratory Information
Available laboratory information, with additional testing arranged where required.

Technical Documentation
Specifications, packing information and supporting documents for commercial and technical requirements.

Regulatory Considerations
Subject to applicable standards, laboratory verification and target-market approvals.

Customer Technical Support
Clarifying requirements, reviewing options and identifying suitable mineral salt solutions.

ARCHITECTURE & WELLNESS INTERIORS

Salt House® supplies natural salt materials and custom-prepared elements for architectural, hospitality, wellness and interior projects, selected according to project dimensions, visual requirements and intended applications.

Salt Rooms & Wellness Spaces
Wall surfaces, illuminated features & decorative installations for salt rooms, spa and wellness environments.

Architectural Salt Elements
Blocks, bricks, tiles, panels & custom-cut slabs for architectural and interior applications.
